PORTFOLIO OBJECTIVES

The investment objective of the portfolio is to achieve long-term capital growth, adopting a higher than medium risk profile, with a target average annual return of 6% to 7% over a seven-year investment horizon. The portfolio may comprise a range of Sharia compliant collective investment vehicles, including unit trusts, OEICs, ETFs and ETCs. The portfolio usually has higher weighting towards equities and relatively low levels towards sukuks compared to a Balanced portfolio. Typically, collectives including equities and commodities may compose over two-thirds of the portfolio. The portfolio's asset allocation and underlying holdings may, however, vary within defined parameters, allowing us to manage risk and pursue the portfolio's return objective as market conditions and investment opportunities evolve over time.

PORTFOLIO INFORMATION

Inception Date	Platform Accessibility	Minimum Investment	Target Return Range
01/07/2019	Fundment	Any size, through Adviser	6% to 7% p.a.

The return target represents the average annual return sought over a seven-year investment horizon. It is gross of all fees, including advice, investment management and platform fees, but net of the underlying funds' ongoing charges (OCFs).

SHARIA COMPLIANCE

Sharia Compliant	Sharia Advisers	Indicative Zakat on Portfolio	Purification ratio
Yes	Shariyah Review Bureau	1.16%	0%

The Zakat percentage is calculated based on the portfolio's underlying investment allocation as at 1 Ramadan (18 February 2026). It is not a fixed rate and may vary over time depending on the composition of the portfolio and its underlying holdings at the relevant calculation date. No direct purification payment is required from the investor in respect of non-compliant income from investments, as the collective investments held within the portfolio make the relevant purification payments to charity within their respective investment structures.
